

VISITOR PARKING

There are usually one or two visitor parking spots at Penticton Flying Club available on a first come first serve basis. There is no fixed cost but donations to the donation box at the clubhouse are appreciated. Precedence is given to long term use by club members, so availability may vary according to demand for long term parking at any given time.

Available PFC visitor parking spots are marked by boards as in the picture below.

In the event that visitor parking is occupied or unavailable, alternative parking is available from Transport Canada. This parking is located on the south end of the airfield to the west of Rwy 34 threshold.
